Version: - 1.0.0.0 | Created: May 25th, 2018.

## 1. Welcome to Pinup Board App

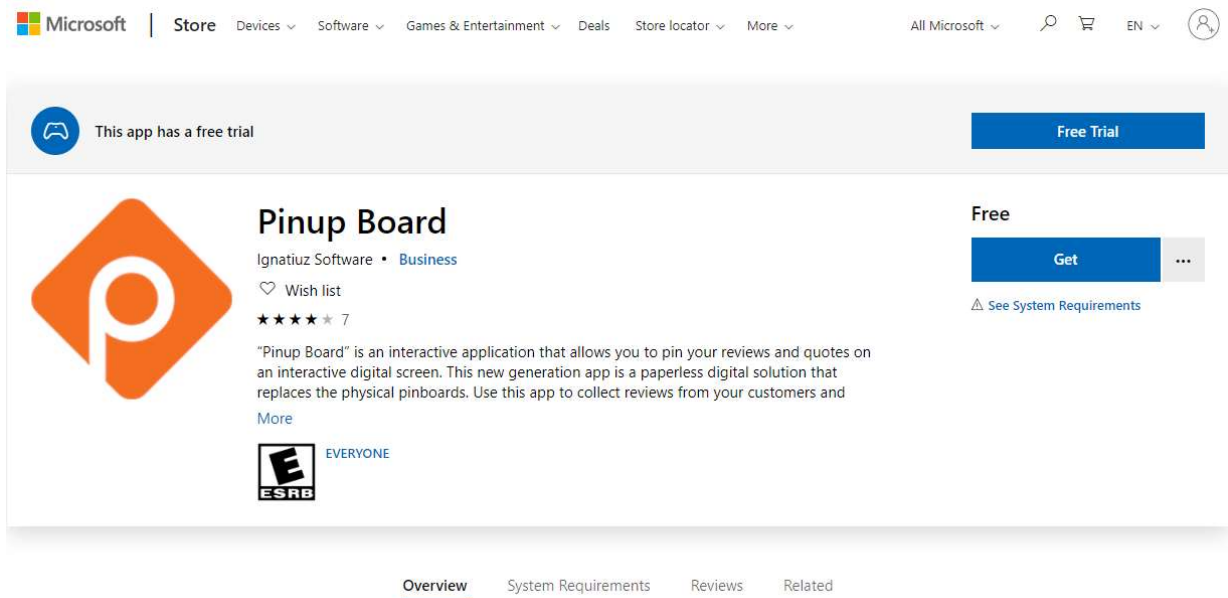

Pinup Board” is an interactive application that allows you to pin your reviews and quotes on an interactive digital screen. This new generation app is a paperless digital solution that replaces the physical pinboards. Use this app to collect reviews from your customers and show those to everyone or pin your personal notes with ease. Application works only for windows 10.

## 2. Latest upgrades and fixes

Triple tap on the right top corner of the screen to access the admin panel. Use the same password you entered while filling business detail.

## 3. Installation and configuration of the app

- ✓ You need to open windows store and search for “Pinup Board” or click on this [link](#). Click to Install/Get button to get the application.

The screenshot shows the Microsoft Store interface for the Pinup Board app. At the top, the Microsoft logo is on the left, and navigation links for Store, Devices, Software, Games & Entertainment, Deals, Store locator, and More are in the center. On the right, there are links for All Microsoft, a search icon, a shopping cart icon, and language settings (EN). Below the navigation bar, a banner indicates "This app has a free trial" with a game controller icon and a "Free Trial" button. The main content area features the app's logo (an orange diamond with a white 'P'), the title "Pinup Board", the developer "Ignatiuz Software • Business", a "Wish list" button, and a 7-star rating. A description follows: "Pinup Board" is an interactive application that allows you to pin your reviews and quotes on an interactive digital screen. This new generation app is a paperless digital solution that replaces the physical pinboards. Use this app to collect reviews from your customers and... A "More" link is provided. Below the description is the ESRB rating "E EVERYONE". On the right side, the price is listed as "Free" with a "Get" button and a "See System Requirements" link. At the bottom, there are tabs for "Overview", "System Requirements", "Reviews", and "Related".

- ✓ After installing the application, you need to click on launch button.
